AUG 10 2017

U.S. DISTRICT COURT Complaint  
MID. DIST. TENN.

In June 2017 these facility had a outbreak of the scabies. Due to the women coming into this facility without proper screening or sanitized, i became infected with the scabies due to this issue. The pain was unbearable due to staying up all night itching. This facility also allows there officers to respond to Emergencies to the women then come back to our unit. The women are housed in same building and are allowed to wash there clothes with ours without using bleach. Corecivic inc locked us down for 3 days that deprived me of calling my family to tell them what's going on. We was not allowed to take a shower for 3 days while we was on lock down. staff members brought Papers and made us sign them or we would be taken to the hole and loss of Goodtime 4 days later the brought 6 Pills for me to take they did not tell me what they were i was itching so bad i had to try something. Every since this i still itch and Corecivic inc, and medical refuse to treat me i filled sick call no answer ive told officers Every one no one will help me do to other lawsuits that were filed.

This is a case of Screening Policies Prisoner seeking  
Care Hutto vs Finney 437 U.S. 678 (1978). This Facility  
does not go by Policies. The itching has caused  
blood to come out from scratching and i have scars.  
These Facility deliberately indifference by noing the women  
had to be screen before entereng the facility where  
TDoc inmates are the women come straight from the  
street where me and other inmates and core civic inc  
staff members are at core civic inc has put Every inmate  
and myself and staff health at risk Just to make  
money. I'm asking for relief from core civic inc et al  
for \$750,000 for the Pain suffering, mental, Emotional  
Physical abuse Punity Damages Also.
